INTERIM MANAGEMENT'S DISCUSSION AND ANALYSIS – QUARTERLY HIGHLIGHTS

For the three and six-month periods ended December 31, 2020 and 2019

[Unless specified otherwise, all amounts are expressed in Canadian dollars]

This interim Management's discussion and analysis ("MD&A") provides a review of NanoXplore Inc.'s operations, performance and financial position for the three and six-month periods ended December 31, 2020 and 2019 and should be read in conjunction with the unaudited consolidated financial statements for the three and six-month periods ended December 31, 2020 and 2019 and with the audited consolidated financial statements for the year ended June 30, 2020 and 2019. The purpose of this document is to provide information on our activities. The information contained herein is dated as of February 24, 2021. You will find more information about us on NanoXplore's website at www.nanoxplore.ca and on SEDAR at www.sedar.com, including all press releases.

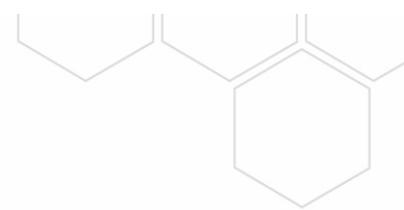

The financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS"). The Company has consistently applied the accounting policies used in the preparation of its IFRS financial statements, including the comparative figures. We occasionally refer to non-IFRS financial measures in the MD&A. See the Non-IFRS financial measures section for more information. The terms "we", "our", "us", "NanoXplore" or the "Company" mean NanoXplore Inc. and its subsidiaries, unless otherwise indicated.

CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING INFORMATION

This MD&A contains certain forward-looking statements with respect to the Company. Such forward-looking statements are dependent upon a certain number of factors and are subject to risks and uncertainties. Actual results may differ from those expected. We consider the assumptions on which these forward-looking statements are based to be reasonable, but we advise the reader that these assumptions with regard to future events, many of which are beyond our control, could prove incorrect as they are subject to risks and uncertainties inherent in our activities. Management does not assume any obligation to update or revise any forward-looking statements, whether as a result of new information of future events, except when required by the regulatory authorities.

This MD&A contains forward-looking statements. When used in this MD&A, the words "may", "would", "could", "will", "intend", "plan", "anticipate", "believe", "seek", "propose", "estimate", "project", "expect" and similar expressions are intended to identify forward-looking statements. In particular, this MD&A contains forward-looking statements with respect to, among other things, business objectives, expected growth, results of operations, performance, business projects and opportunities and financial results. These statements involve known and unknown risks, uncertainties and other factors that may cause actual results or events to differ materially from those anticipated in such forward-looking statements. Such statements reflect NanoXplore's then current views with respect to future events based on certain material facts and assumptions and are subject to certain risks and uncertainties, including without limitation changes in the risk factors described under the section risks and uncertainties of this statement. The forward-looking information is based on certain key expectations and assumptions made by NanoXplore, including expectations and assumptions concerning availability of capital resources, business performance, market conditions and customer demand. Although NanoXplore believes that the expectations and assumptions on which such forward-looking information is based are reasonable, undue reliance should not be placed on the forward-looking information since no assurance can be given that it will prove to be correct.

Many factors could cause NanoXplore's actual results, performance or achievements to vary from those described in this MD&A, including without limitation those listed above, those described under the section risks and uncertainties of this statement as well as the assumptions upon which they are based proving incorrect. These factors should not be construed as exhaustive. Should one or more of these risks or uncertainties materialize, or should assumptions underlying forward-looking statements prove incorrect, actual results may vary materially from those described in this MD&A as intended, planned, anticipated, believed, sought, proposed, estimated or expected, and such forward-looking statements should not be unduly relied upon. NanoXplore does not intend, and does not assume any obligation, to update these forward-looking statements except as required by law. The forward-looking statements contained in this MD&A are expressly qualified by these cautionary statements. Forward-looking information contained in this MD&A about prospective results of operations, financial position or cash flows is based on assumptions about future events, including economic conditions and proposed courses of action, based on NanoXplore's management's assessment of the relevant information currently available. Readers are cautioned that outlook information contained in this MD&A should not be used for the purposes other than for which it is disclosed herein or therein, as the case may be.

BUSINESS OVERVIEW

COMPANY OVERVIEW

NanoXplore Inc. (and its subsidiaries together “NanoXplore” or the “Company”) is a graphene company, a manufacturer and supplier of high-volume graphene powder for use in industrial markets. Also, the Company provides standard and custom graphene-enhanced plastic and composite products to various customers in transportation, packaging, electronics, and other industrial sectors. The Company was formed by amalgamation under the *Canada Business Corporations Act* by certificate of amalgamation dated September 21, 2017 and is headquartered at 4500 Thimens Blvd, Montreal, QC, Canada.

NanoXplore Inc. is listed on the TSX Venture Exchange and has traded under “GRA” and is also listed on the OTCQX and has traded under “NNXPF”.

The Company has the following subsidiaries:

- 9334-7474 Québec Inc., based in Canada, with an equity interest of 100% [2019 – 100%].
- NanoXplore Switzerland Holding SA (“NanoXplore Switzerland”), based in Switzerland, with an equity interest of 100% [2019 – 100%]. NanoXplore Switzerland holds 100% of CEBO Injections SA (“CEBO”);
- Sigma Industries Inc., based in Canada, with an equity interest of 100% [2019 – 100%]. Sigma has two active wholly owned subsidiaries; Faroex Ltd., based in Manitoba, and Rene Composite Materials Ltd., based in Quebec. Rene Composite Materials Ltd has one active wholly owned subsidiary; RMC Advanced Technologies Inc, based in the United States.

BUSINESS HIGHLIGHTS

COVID-19 Pandemic

On March 11, 2020, the World Health Organization declared the outbreak of COVID-19 a global pandemic and recommended various containment and mitigation measures. Since then, extraordinary actions have been taken by public health and governmental authorities across the globe to contain the spread of COVID-19, including travel bans, social distancing, quarantines, stay-at-home orders and similar mandates for many businesses to reduce or cease normal operations.

Even though our manufacturing operation resumed during the month of May, the COVID-19 global pandemic had and continue to have a significant negative impact on our customer’s business activities. This slowdown of manufacturing operations and dissipation of customer demand had a negative impact on the Company’s financial results since the second half of March 2020.

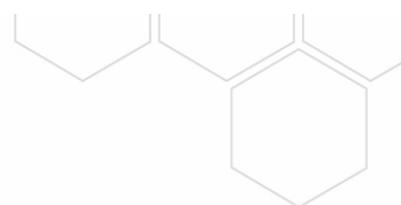

The COVID-19 pandemic had an adverse effect on our business, results of operations, cash flows and financial position however, the full impact cannot be determined at this time. The extent of the impact will depend on various factors, including the possibility of future shutdowns, impact on customers and suppliers, the rate at which economic conditions, operations return to pre-COVID levels, any continued or future governmental orders or lock-downs due to this wave of COVID-19, or any future wave, and the potential for a recession in key markets due to the effect of the pandemic.

In light of the discovery of an effective vaccine and the start of its deployment, it allows us to hope for an end to the crisis. Until the situation is stable, the Company will continue to respond in a measured, prudent and decisive manner with continued emphasis on health and safety, cash conservation and the maintenance of its liquidity position.

Acquisition of Newton Facility

On September 11, 2020, through its wholly-owned indirect subsidiary RMC Advanced Technologies Inc., the Company acquired substantially all of the assets of CSP Composites, LLC, Continental Structural Plastics, Inc. and Continental Structural Plastics of North Carolina, Inc. (collectively, “CSP”) used in connection with its lightweight composite solutions and material business as conducted at 1400 Burris Road, Newton, North Carolina, for an unadjusted total purchase price of US\$3,500,000. The purchase price was reduced by a downward inventory adjustment of US\$128,929. This acquisition was concluded in order to expand the Company’s business in the United States.

CSP employs nearly thirty people and operates mainly in the markets of composite products for heavy trucks and machinery. It sells its products to original equipment manufacturers and distributors in the United States, Canada and South America.

Graphene plant project in Montreal

The Company's graphene plant in Montreal of a 4,000/mt capacity became operational on July 7, 2020.

Financing

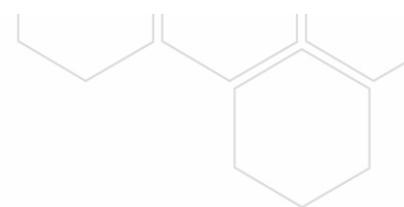

On February 12, 2021, the Company completed a financing of 11,500,000 common shares at a price of \$4.00 per share for gross proceeds of \$46,000,000. The Company intends to use the net proceeds of the financing for battery initiatives, debt reduction, sales and marketing of graphene and for general corporate purposes.

FINANCIAL HIGHLIGHTS

The following selected financial data are derived from the Consolidated Financial Statements of the Company for the following periods:

Q3-2020	March 31, 2020	14,866,180	(2,993,379)	(0.02)	Note 4
Q2-2020	December 31, 2019	17,733,510	(2,266,153)	(0.02)	Note 5
Q1-2020	September 30, 2019	19,983,089	(2,330,435)	(0.02)	
Q4-2019	June 30, 2019	22,745,880	(4,717,098)	(0.04)	Note 6
Q3-2019	March 31, 2019	20,720,455	(2,736,849)	(0.03)	

Note 1 The increase in revenues is explained by the business acquisition of CSP which has been completed September 11, 2020. The pandemic has still negatively impacted our revenues. We also received government assistance of approximately \$945,000 from the Canadian federal government through its Canada Emergency Wage Subsidy ("CEWS") program. The loss was higher than usual given less CEWS received, negative FX impact and higher selling, general and administrative expenses explained by the addition of strategic new positions, the addition of the acquired company (CSP) and higher salary expenses.

Note 2 A resumption of activities has been observed among our customers, which explains an increase in revenues compared to the previous quarter, but the pandemic has still negatively impacted our revenues and we also received government assistance of approximately \$2,200,000 from the Canadian federal government through its CEWS program. Although the Covid-19 pandemic has negatively impacted the results of the quarter, the loss was less significant than expected given the CEWS received.

Note 3 The decrease in revenues is explained by the negative impact of the COVID-19 pandemic partially offset by received government assistance of approximately \$1,900,000 from the Canadian federal government through its CEWS program. Although the Covid-19 pandemic has negatively impacted the results of the quarter, the loss was less significant than expected given the CEWS and the cost reduction plan put in place during the quarter.

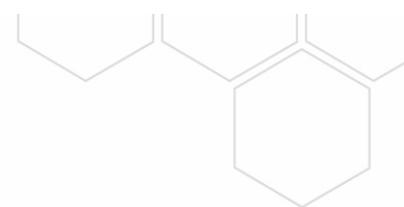

Note 4 The decrease of the revenues is mainly explained by a decline in the transportation market (particularly trucks).

Note 5 The decrease of the revenues is mainly explained by a decline in the transportation market (particularly trucks).

Note 6 The higher loss than usual is attributed to the sales of Rada Industries' equipment, which results into a loss of \$738,524 and an increase of total salaries due to higher incentives.

RESULTS OF OPERATIONS VARIANCE ANALYSIS - FOR THE THREE-MONTH PERIODS ENDED DECEMBER 31, 2020 AND 2019

Revenues

Revenues from customers decreased from \$17,414,510 in 2019 to \$16,218,363 in 2020. The decrease in sales is mainly explained by non-recurrent tooling revenues higher in 2019 than 2020 and by the negative impact of the Covid-19 pandemic which has impacted all our markets, mainly the transportation industry, despite the addition of sales coming from the company CSP which has been acquired on September 11, 2020.

Other income was \$319,000 in 2019 compared to \$1,245,468 in 2020. The increase is explained by the Canadian federal government's CEWS program set up to help businesses deal with the pandemic Covid-19. The Company received approximately \$945,000 under this program during Q2-2021.

Loss for the period

The loss for the three-month period increased from \$2,266,153 in 2019 to \$3,403,581 in 2020 for a variation of \$1,137,428 which is mainly explained as follows:

- The decrease of volume in revenues from customers due to the pandemic Covid-19 which has impacted negatively the gross margin of approximately \$300,000;
- Higher selling, general and administrative expenses of approximately \$1,080,000 mainly due to the addition of strategic new positions, the addition of the acquired company (CSP) and higher salary expenses;
- Higher depreciation and amortization expenses of approximately \$361,000 mainly explained by the depreciation related to the graphene plant, which became operational in July 2020;
- Negative FX impact during the current quarter while it was a positive impact in 2019 (net negative impact of approximately \$269,000).
- Higher interest expenses during this quarter are explained by the addition of lease equipment, interest on the convertible debentures were not capitalized (during the construction of the graphene plant, part of the interest on the convertible debentures were capitalized) and lower interest rate for the cash on hand (approximately \$283,000).
- These losses were offset by the government assistance received from the Canadian federal government through its CEWS program of approximately \$945,000.

RESULTS OF OPERATIONS VARIANCE ANALYSIS - FOR THE SIX-MONTH PERIODS ENDED DECEMBER 31, 2020 AND 2019

Revenues

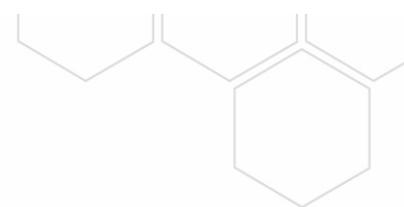

Revenues from customers decreased from \$37,165,828 in 2019 to \$29,426,261 in 2020. The decrease in sales is mainly explained by non-recurrent tooling revenues higher in 2019 than 2020 and by the negative impact of the Covid-19 pandemic which has impacted all our markets, mainly the transportation industry, despite the addition of sales coming from the company CSP which has been acquired on September 11, 2020.

Other income increased from \$550,771 in 2019 to \$3,614,237 in 2020. The increase is explained by the Canadian federal government's CEWS program set up to help businesses deal with the pandemic Covid-19. The Company received approximately \$3,145,000 under this program during the six-month periods ended December 31, 2020.

Loss for the period

The loss for the six-month period increased from \$4,596,588 in 2019 to \$4,622,289 in 2020 for a variation of \$25,701 which is mainly explained as follows:

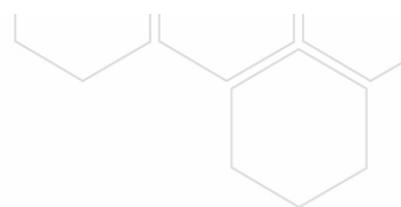

- The decrease of volume in revenues from customers due to the pandemic Covid-19 which has impacted negatively the gross margin of approximately \$904,000;
- Higher selling, general and administrative expenses of approximately \$876,000 due to the addition of strategic new positions, the addition of the acquired company (CSP) and higher salary expenses;
- Additional depreciation and amortization expenses of approximately \$866,000 mainly explained by the depreciation related to the graphene plant, which became operational in July 2020;
- Higher interest expenses during the six-month period are explained by the addition of lease equipment, interest on the convertible debentures were not capitalized (during the construction of the graphene plant, part of the interest on the convertible debentures were capitalized) and lower interest rate for the cash on hand (approximately \$495,000);
- These losses were offset by the government assistance received from the Canadian federal government through its CEWS program of approximately \$3,145,000.

Changes in non-cash working capital items	(1,254,839)	(2,895,370)	1,640,531	(57%)
Operating activities	(2,461,452)	(4,683,093)	2,221,641	(47%)
Financing activities	(966,928)	6,894,186	(7,861,114)	(114%)
Investing activities	(7,259,678)	(10,494,719)	3,235,041	(31%)
Net effect of currency exchange rate on cash and cash equivalents	5,473	1,532	3,941	257%
Net change in cash and cash equivalents	(10,682,585)	(8,282,094)	(2,400,491)	29%

Operating activities

Cash flows used in operating activities prior to changes in non-cash working capital items was \$1,206,613 in 2020 compared to \$1,787,723 in 2019 for a variation of \$581,110. The COVID-19 pandemic has negatively impacted the cash flow from the operating activities. However, it has been offset by received government assistance of approximately \$3,450,000 from the Canadian federal government through its CEWS program.

Changes in non-cash working capital items decreased by \$1,254,839 for the six-month period ended December 31, 2020. The decrease is explained as follows:

- Lower accounts payables and accrued liabilities of \$1,982,865 mainly due to non-recurrent payment related to tooling contracts (\$1,000,000) and to the end of the graphene plant construction (approximately \$600,000).
- An increase of prepaid expenses of \$694,132 related to the insurance premium annual payment.
- These were offset by a decrease of accounts receivable and contract asset of \$1,982,865 mainly explained by timing in billing of tooling contracts (\$1,700,000).

Financing activities

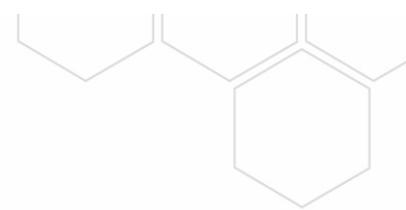

Cash flows used in financing activities was \$966,928 in 2020 compared to cash flows generated of \$6,894,186 in 2019. During 2020, repayment of \$1,849,314 was completed for long-term debt and lease liability which was offset by stock options exercised for \$692,900. During 2019, warrants and broker warrants were exercised for \$6,422,041 and \$2,500,000 were generated from the operating loans. These were offset by repayment of \$2,047,855 on long-term debt and lease liability.

Investing activities

Cash flows used in investing activities was \$7,259,678 in 2020 compared to \$10,494,719 in 2019. During 2020, approximately \$2,300,000 was paid for the business acquisition of the assets of CSP, and approximately \$4,800,000 was paid for capital expenditures which are mostly related to expenditures of the extruding line of the graphene plant and composites equipment. During 2019, most of the expenditures were for the construction of the graphene plant in Montreal.

LIQUIDITY AND CAPITAL RESOURCES

Management believes that the Company has sufficient funds to meet its obligations, operating expenses and some development expenditures for the ensuing 12 months as they fall due. The Company's ability to continue its development activities is dependent on the impact of Covid-19 and the beginning of commercial operation of the graphene products. The graphene commercial activity is in the development stage, and as a result, the Company has minimal sources of operating revenue from those operations and could be dependent on external financing to fund its continued development program, if the beginning of the commercial operation of the graphene activity is delayed. The Company's main sources of funding have been the issuance of equity securities for cash, debt, and funds from the government of Quebec with respect to R&D tax credits, from Sustainable Development Technology Canada ("SDTC") and from the CEWS.

FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

For a detailed description of the financial instruments and risk management associated with the Company and its activities, please refer to the consolidated financial statements of the years ended June 30, 2020 and 2019. These identified financial instruments and risks are consistent through the periods.

OFF-BALANCE SHEET ARRANGEMENTS

As of the date of this MD&A, the Company did not have any off-balance sheet arrangements, except for the commitment disclosed in the unaudited condensed interim consolidated financial statements of December 31, 2020 and 2019.

OUTSTANDING SHARES

As at February 24, 2021, the Company has:

- 157,760,059 common shares issued and outstanding;
- 3,753,466 options outstanding with expiry dates ranging between January 2, 2022 and February 23, 2026 with exercise prices between \$0.45 and \$3.85. If all the options were exercised, 3,753,466 shares would be issued for cash proceeds of \$5,463,460.

RELATED PARTY TRANSACTIONS

For a detailed description of all related party transactions, please refer to the Note 7 "Related party transactions" in the unaudited condensed interim consolidated financial statements of December 31, 2020 and 2019.

RISKS AND UNCERTAINTIES

The operations of the Company are speculative due to the high-risk nature of its business, which is the acquisition, financing, technology and manufacturing. These risk factors could materially affect the Company's future operating results and could cause actual events to differ materially from those described in forward-looking information relating to the Company.

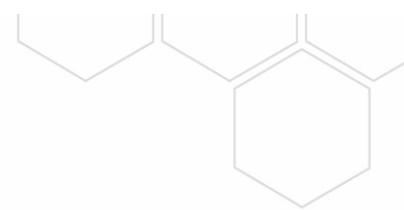

For a detailed description of risks and uncertainties, refer to the annual consolidated financial statements of June 30, 2020 and 2019 and to the annual information form of June 30, 2020.

CRITICAL ACCOUNTING JUDGMENTS AND ESTIMATES

For a detailed description of the critical accounting judgments and estimates associated with the Company and its activities, please refer to the section "Significant management estimations and judgments in applying accounting policies" in note 2 in the audited consolidated financial statements for the years ended June 30, 2020 and 2019. The Company was not required to make significant judgments, estimates and assumptions in areas other than those mentioned in the audited consolidated financial statements for the years ended June 30, 2020 and 2019.

FUTURE CHANGES IN ACCOUNTING POLICIES

The standards and amendments to existing standards have been published, and their adoption is mandatory for future accounting periods. Refer to the note 3 in the consolidated financial statements for the years ended June 30, 2020 and 2019 and to note 2 in the consolidated financial statements for the periods ended December 31, 2020 and 2019 for the details of these standards and amendments.

CONTROLS AND PROCEDURES

The information provided in this MD&A, including the consolidated financial statements, is the responsibility of management. In the preparation of these statements, estimates are sometimes necessary to make a determination of future values for certain assets or liabilities. Management believes such estimates have been based on careful judgments and have been properly reflected in the accompanying financial statements.

The Board of Directors oversees management's responsibility for financial reporting and internal control systems. The Board of Directors meets quarterly with management and annually with the independent auditors to review the scope and results of the annual audit and to review the year-to-date financial statements and related financial reporting and internal control matters before the financial statements are approved by the Board of Directors and submitted to the shareholders.

In contrast to the certificate required under National Instrument 52-109 Certification of Disclosure in Issuers' Annual and Interim Filings ("NI 52-109"), the Venture Issuer Basic Certificate does not include representations relating to the establishment and maintenance of disclosure controls and procedures ("DC&P") and internal control over financial reporting ("ICFR"), as defined in NI 52-109. In particular, the certifying officers filing this certificate are not making any representations relating to the establishment and maintenance of:

- controls and other procedures designed to provide reasonable assurance that information required to be disclosed by the Company in its annual filings, interim filings or other reports filed or submitted under securities legislation is recorded, processed, summarized and reported within the time periods specified in securities legislation; and
- a process to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with the Company's GAAP.

The Company's certifying officers are responsible for ensuring that processes are in place to provide them with sufficient knowledge to support the representations they are making in this certificate. Investors should be aware that the design and implementation of such processes by those responsible for a venture issuer are subject to cost limitation. DC&P and ICFR as defined in NI 52-109 may result in additional risks to the quality, reliability, transparency and timeliness of interim and annual filings and other reports provided under securities legislation.

The Board of Directors has approved the unaudited condensed interim consolidated financial statements.
