

**NanoXplore Files Amended and Restated Management Information Circular
To Correct Typographical Error**

NanoXplore Inc. ("**NanoXplore**") is hereby filing an amended and restated management information circular (the "**Amended Circular**") with respect to its annual meeting of shareholders (the "**Meeting**") to be held on Thursday, December 7, 2023 at 10:00 a.m. (Eastern Standard Time).

The Amended Circular replaces and supersedes the management information circular of NanoXplore filed on SEDAR+ on November 15, 2023 in respect of the Meeting (the "**Initial Circular**"). The Amended Circular corrects a typographical error with respect to Board meeting attendance for Mr. Arinder S. Mahal.

Mr. Mahal's attendance to Board meetings for the most recently completed financial year was incorrectly stated in the Initial Circular and it has now been corrected to reflect Mr. Mahal's 100% attendance. The Amended Circular otherwise remains unchanged from the Initial Circular.

A copy of the Amended Circular is available on SEDAR+ at www.sedarplus.ca. Shareholders may also obtain a copy of the Amended Circular on NanoXplore's website at www.nanoxplore.ca.

For further information, please contact the corporate secretary of the Corporation at sophie.rossignol@nanoxplore.ca.

PROXY VOTING

Who is soliciting my proxy?

Your proxy is being solicited by the management of the Corporation in connection with the annual meeting of shareholders (the "**Meeting**") to be held on December 7, 2023 and at every adjournment thereof, and the associated costs will be borne by the Corporation. The solicitation of proxies will be primarily by mail, but may be by telephone or other personal contact by directors of the Corporation (the "**Directors**"), such Directors receiving no compensation for the solicitation of proxies. The Corporation shall, upon request, reimburse brokerage firms and other custodians for their reasonable expenses in forwarding proxies and related material to beneficial owners of shares of the Corporation.

How do I vote?

If you are a registered shareholder, you may vote at the Meeting or you may sign the enclosed Proxy Form appointing the named persons or some other person you choose, who need not be a shareholder, to represent you as proxyholder and vote your common shares in the capital of the Corporation ("**Common Shares**") at the Meeting. If your Common Shares are held in the name of an intermediary, please see the box on page 3 hereof for voting instructions.

What am I voting on?

Shareholders will be asked to vote on the following matters:

1. **the election of Directors to the Board of Directors of the Corporation for the ensuing year;**
2. **the appointment of the auditors of the Corporation for the ensuing year and on the authorization for the Directors to fix their remuneration; and**
3. **any such other business as may properly be brought before the Meeting or at any adjournment thereof.**

For further information, please refer to the heading "Agenda for Shareholders' Meeting".

Other than as specifically discussed under the heading "Agenda for Shareholders' Meeting", no Director or executive officer, past, present or nominated hereunder, or any associate or affiliate of such persons, or any person on behalf of whom this solicitation is made, has any interest, direct or indirect, in any matter to be acted upon at the Meeting, except that such persons may be directly involved in the normal business of the Meeting or the general affairs of the Corporation.

What if I sign the Proxy Form enclosed with this Management Proxy Circular?

Signing the enclosed Proxy Form gives authority to Soroush Nazarpour, who is the President and Chief Executive Officer of the Corporation, Pedro Azevedo, who is the Chief Financial Officer of the Corporation, or another person you have appointed, to vote your Common Shares at the Meeting.

Can I appoint someone other than these officers to vote my Common Shares?

Yes. Write the name of this person, who need not be a shareholder, in the blank space provided in the Proxy Form. It is important to ensure that any other person you appoint is attending the Meeting and is aware that he or she has been appointed to vote your Common Shares.

What do I do with my completed Proxy Form?

Return it to the Corporation's transfer agent, TSX Trust, by mail at 100 Adelaide Street West, Suite 301, Toronto, Ontario, M5H 4H1, by fax to 1-416-595-9593 or by email at: tsxtis@tmx.com, **no later than 10:00 a.m. (Eastern Standard Time) on December 5, 2023.** This will ensure that your vote is recorded.

If I change my mind, can I take back my proxy once I have given it?

Yes. If you change your mind and wish to revoke your proxy, prepare a written statement to this effect. The statement must be signed by you or your attorney as authorized in writing or, if the shareholder is a corporation, under its corporate seal or by an officer or attorney of the corporation duly authorized. This statement must be delivered at the above-mentioned registered office of TSX Trust, at any time up to and including the last business day preceding the day of the Meeting, or any adjournment thereof, at which the proxy is to be used, or with the Chairman of the Meeting on the day of the Meeting or any adjournment thereof, and upon either of such deposits the proxy is revoked.

How will my Common Shares be voted if I give my proxy?

The Common Shares represented by your Proxy Form will be voted or withheld from voting in accordance with your instruction on the Proxy Form on any ballot that may be called for. If you specify a choice with respect to any matter to be acted upon, your Common Shares will be voted accordingly. If you have not specified how to vote on a particular matter, or if any amendments are proposed to any matter, or if other matters are properly brought before the Meeting, then, in each case, your proxyholder can vote your Common Shares as your proxyholder sees fit. Management knows of no such amendments or other matters to come before the Meeting other than the matters referred to in the notice of annual meeting ("**Notice**").

If you properly complete and return your Proxy Form appointing representatives of management of the Corporation as your proxy but do not specify how you wish the votes to be cast, your Common Shares will be voted:

- (a) **FOR the election of Directors nominated by management and the Board;**
- (b) **FOR the appointment of PricewaterhouseCoopers LLP as auditors for the ensuing year and the authorization of the Directors to fix their remuneration; and**
- (c) **on any other matter which may properly come before the Meeting.**

How many Common Shares are entitled to vote?

As of October 27, 2023 (the "**Record Date**"), there were 169,378,431 Common Shares issued and outstanding, each of which entitling its holder to one vote at the Meeting. Only shareholders registered at the close of business on the Record Date are entitled to receive notice of and to vote at the Meeting.

Who counts the votes?

The Corporation's transfer agent, TSX Trust, counts and tabulates the proxies. This is done independently of the Corporation. Proxies are referred to the Corporation only in cases where a shareholder clearly intends to communicate with management or when it is necessary to do so to meet the requirements of applicable law.

If I need to contact the transfer agent, how do I reach them?

For general shareholder enquiries, you can contact the transfer agent:

by mail: TSX Trust Company
100 Adelaide Street West, Suite 301
Toronto, Ontario, M5H 4H1

or by telephone: 1-866-600-5869 (within North America) or 1-416-342-1091 (outside North America)

or by email: tsxtis@tmx.com

or by fax: 1-416-361-0470

If my Common Shares are not registered in my name but are held in the name of an intermediary (a bank, trust corporation, securities broker, trustee or other), how do I vote my Common Shares?

These beneficial owners of Common Shares (the “**Beneficial Owners**”) must be aware of the fact that only proxies filed by shareholders whose names appear in the Corporation’s book as registered holders of Common Shares may be recognized and may benefit from the right to vote at the Meeting. The voting rights attached to the Common Shares held by an intermediary may be exercised by the intermediary, on behalf of the Beneficial Owner, only according to the Beneficial Owner’s specific instructions, which must be obtained before the Meeting. Each intermediary has its own rules concerning the mailing and forwarding of voting instruction forms, notices of meeting, proxy circulars as well as all other documents sent to shareholders for a meeting. The intermediary is prohibited from exercising the voting rights attached to the Common Shares of its clients without specific voting instructions.

In accordance with the requirements of *Regulation 54-101 respecting Communication with Beneficial Owners of Securities of a Reporting Issuer* of the Canadian Securities Administrators, the Corporation has elected to send the notice of Meeting, this Management Proxy Circular and the Proxy Form directly to the non-objecting Beneficial Owners (the “**NOBOs**”). The intermediaries are responsible for forwarding these documents to each NOBO who has objected to his intermediary disclosing ownership information about himself (the “**OBO**”) unless that OBO has waived the right to receive them.

There are two ways you can vote your Common Shares held by your intermediary. As required by Canadian securities legislation, you will have received from your intermediary either a request for voting instructions or a form of proxy for the number of Common Shares you hold. For your Common Shares to be voted for you, please follow the voting instructions provided by your intermediary. Since the Corporation has limited access to the names of its Beneficial Owners, if you attend the Meeting, the Corporation may have no record of your shareholdings or your entitlement to vote unless your intermediary has appointed you as proxyholder. If you wish to vote in person at the meeting, insert your own name in the space provided on the request for voting instructions or form of proxy and return same by following the instructions provided. You can also write the name in the space provided thereof of someone else whom you wish to attend Meeting and vote on your behalf. Do not otherwise complete the form as your vote will be taken at the Meeting. Please register with the Transfer agent, TSX Trust, upon arrival at the meeting.

PRINCIPAL HOLDERS OF VOTING SECURITIES

To the knowledge of the Directors and Named Executive Officers of the Corporation, as at the Record Date, the only person, firm or corporation who beneficially owns, or controls or directs, directly or indirectly, over voting securities of the Corporation carrying more than 10% of the voting rights attached to any class of voting securities of the Corporation, is as follows:

The annual retainer fees for the Chair of the board committees were also below market median, ranging from 47% to 59% of median.

6. EXECUTIVE COMPENSATION

COMPENSATION DISCUSSION AND ANALYSIS

The information contained under this heading describes the compensation received by the Named Executive Officers of the Corporation for the year ended June 30, 2023.

General Principles of Executive Compensation

The Corporation aims to develop compensation policies that will both align the interests of its personnel with those of shareholders and allow the Corporation to attract and retain the best people in an increasingly competitive marketplace. To do so, the Corporation recognizes that its compensation program must be flexible and able to adapt to as quickly as the sector in which the Corporation evolves.

Components of the Corporation's Compensation Program

NanoXplore's compensation program consists of the following elements:

- (a) base salary;
- (b) short term incentive compensation comprised of objectives based and discretionary cash bonuses; and
- (c) long-term incentive compensation and stock options.

Base salary

The base salary is intended to provide a fixed level of competitive pay that is established at the time when an officer, employee or consultant joins NanoXplore. NanoXplore's Board and/or HRCC periodically reviews compensation levels to determine if adjustments are necessary.

Short term incentive compensation comprised of objectives based and discretionary cash bonuses

Discretionary cash bonuses may form a part of the overall compensation program for certain employees and service providers. They are not linked with share price performance. Eligibility and the award of cash bonuses will be dependent on the achievement of:

- (a) corporate performance thresholds; and
- (b) predetermined individual performance thresholds as well as the recommendation of the HRCC and the approval of the Board of Directors.

Long-term incentive programs

To further align the interests of management with those of the Corporation's shareholders, stock options are granted to admissible persons under the Stock Option Plan, which is further described below under the heading "Stock Option Plan". Pursuant to the Stock Option Plan, optionees may acquire Common Shares at the fair market value on the date of the grant. The timing and number of options granted are determined by the Board. Options are granted from time to time and expire up to ten years from the date of the grant. The number and terms of outstanding options are taken into account when determining whether and how many new option grants will be made.

When determining individual option grants, the Board takes into consideration the job level of optionees and the level of contribution these individuals make to the Corporation's financial performance.

In addition to the granting of stock options to key employees and service providers, NanoXplore may also consider other long-term incentive programs to align interests and retain key personnel.

In order to reward employees with job levels of manager and above for their contributions to the business during a financial year, the Corporation adopted an annual bonus plan. Each participant's annual bonus award is computed as a percentage of base salary received as at year-end (June 30), with some exceptions. The application of both financial and individual performance measures are used in determining bonus awards. Payment of any bonus does not constitute part of a participant's normal remuneration and the Chief Executive Officer and Board of Directors reserve the right to terminate, withhold or amend the Plan at any time.

COMPENSATION GOVERNANCE

The HRCC has the responsibility to establish a compensation policy for the executive officers that is consistent with the Corporation's business plan, strategies and objectives. The HRCC is responsible for monitoring and reviewing compensation programs for senior executives and making recommendations to the Board. Each of the members of the HRCC has experience on boards of other reporting issuers dealing with matters relating to executive compensation.

The HRCC's responsibilities, powers and operations are described in the HRCC's Charter, a copy of which is available online on the Corporation's website at www.nanoxplore.ca.

As at November 7, 2023, the HRCC was made up of the following three independent directors: Cameron Harris, Catherine Loubier and Benoît Gascon, with the latter being the chair of the Committee. All members of the HRCC are independent members under the applicable securities legislation. They all possess experience in the area of executive compensation, either as former Chief Executive Officers of publicly traded companies or as executives.

The Board believes that the members of the HRCC possess the combined knowledge, experience and backgrounds necessary to fulfill the Committee's mandate.

On an annual basis, the HRCC evaluates the adequacy of compensation of the Directors and executive officers. After review and analysis, the HRCC recommends the compensation of the Directors and executive officers to the Board for approval.

The HRCC uses discretion and judgment when determining compensation levels as they apply to a specific executive officer. Individual compensation may be based on individual experience and performance or other criteria deemed important by the HRCC. In order to meet NanoXplore's objectives, the HRCC is guided by:

- aligning employee compensation with corporate objectives;
- attracting and retaining highly qualified individuals in key positions; and
- providing executives with an equity-based incentive plan.

Given the size of the Corporation and its relatively simple process to determine the compensation, neither the HRCC nor the Board have considered the implications of the risks associated with the Corporation's compensation policies and practices applicable to all employees. Such risks, however, are mitigated by the Board's active involvement at the strategic level of the Corporation's businesses.

The Corporation's policy on transactions on the securities of the Corporation prohibits Named Executive Officers and directors to purchase derivative financial instruments such as forward contracts or equity swap or other financial instruments designed to hedge or offset a decrease in market value of our Common Shares.

PENSION PLAN BENEFITS

The Corporation does not offer any pension plan benefits to any of its Directors or Named Executive Officers.

EXTERNAL INDEPENDENT CONSULTANT

As indicated above, in the section Compensation of the Directors, during the year ended June 30, 2022, the HRCC, in consultation with management, retained the services of Meridian to assess the overall compensation of the Directors and Named Executive Officers of the Corporation. The main objective of such mandate was to benchmark Directors and Management's compensation with the compensation of Peers so that the Corporation remains competitive in terms of compensation and attracts and retains its people.

The Peers are comprised of the following 12 companies which were recommended by Meridian:

- 5N Plus Inc.
- EcoSynthetix Inc.
- Good natured Products Inc.
- Neo Performance Materials Inc.
- Advanced Emissions Solutions, Inc.
- Chase Corporation
- Core Molding Technologies, Inc.
- Flotek Industries, Inc.
- Hawkins, Inc.
- Marrone Bio Innovations, Inc.
- Northern Technologies International Corporation
- The Eastern Company

For the Named Executive Officers, the benchmarking confirmed that the total direct compensation for the Chief Operating Officer and Chief Financial Officer were competitive relative to market while it is below a competitive range of market for the Chief Executive Officer. The target total direct compensation for the Chief Executive Officer was below a competitive range of market, at 73% of median.

Meridian's recommendations were taken into consideration when the HRCC reviewed and recommended the compensation of the executive officers for the year ending June 30, 2023 and total compensation of the Named Executive Officers were adjusted accordingly.

Executive Compensation-Related Fees

The aggregate fees billed by Meridian for services related to determining compensation for the Corporation's director and executive officers were \$42,000 during the year ended June 30, 2022.

No executive compensation-related services were provided nor billed by a compensation consultant or advisor during the most recently completed financial year.

All Other Fees

No other services were provided nor billed by a compensation consultant or advisor during the two most recently completed financial years.

STOCK OPTION PLAN

On October 12, 2018, the Board of Directors established the Stock Option Plan pursuant to which options may be granted in favour of Directors, officers, employees and consultants providing ongoing services to the Corporation, up

to a maximum of 8,000,000 Common Shares.

The exercise price, terms and conditions of the options are established by the Board of Directors, subject to the rules of the regulatory authorities having jurisdiction over the securities of the Corporation. The exercise price at the time of the grant of the options shall not be less than the closing market price of the Common Shares on the day prior to their grant. The options granted may be exercised during a period not exceeding ten years. The options are non-transferable. For any option granted under the Stock Option Plan, the Board of Directors may determine whether such option shall vest immediately or be subject to such vesting schedule as the Board of Directors may deem appropriate in the circumstances. Notwithstanding the foregoing, options issued to consultants performing investor relations activities must vest in stages over 12 months with no more than ¼ of the options vesting in any three-month period.

The number of Common Shares reserved for issuance to any individual Director or officer will not exceed 5% of the issued and outstanding Common Shares, and the number of Common Shares reserved for issuance to all consultants and persons employed in investor relations activities on behalf of the Corporation will not exceed 2% of the issued and outstanding Common Shares.

Except if the Corporation obtained the approval of disinterested shareholders, the aggregate number of shares which may be issued to insiders (as a group) at any time, and the number of shares which may be issued to insiders to within a 12-month period, calculated on the date an option is granted, may not exceed 10% of the issued Common Shares of the Corporation.

In the event of the termination of an employee, the options granted to such employee may be exercised in whole or in part, during a period commencing on the date of such termination and ending 90 days thereafter or on the expiry date of such employee's options, whichever comes first.

In the event of the termination of a consultant performing investor relations activities, the options granted to such consultant may be exercised in whole or in part by the consultant, during a period commencing on the date of such termination and ending within 30 days thereafter or on the expiry date of such consultant's options, whichever comes first.

If an optionee's employment with or engagement by the Corporation or appointment to the Board of Directors is terminated for cause, each of the optionee's unexercised options shall immediately terminate and the optionee will not receive any payment for such termination.

In the event of the death of the optionee, the options granted to such optionee may be exercised in whole or in part by the legal personal representative of the optionee, during a period commencing on the date of death and ending 12 months later or on the expiry date of such optionee's options, whichever comes first.

Amendments to the Stock Option Plan are subject to the provisions of the TSX Company Manual. Without limiting the foregoing, the Board may not make certain amendments to the Stock Option Plan, including the following, without the requisite approval from the TSX and the shareholders:

- (b) a reduction in the option price (other than for standard anti-dilution purposes) held by or benefiting any participant;
- (c) an increase in the maximum number of shares that may be issued to insiders within any one year period or that are issuable to insiders at any time;
- (d) an extension of the term of an option held by or benefiting any participant;
- (e) any change to the definition of "Participant" included in the Stock Option Plan which would have the potential of broadening or increasing insider participation;
- (f) any amendment to the amendment provisions of the Stock Option Plan; and
- (g) any other amendments that may provide additional benefits to the participants of the Stock Option Plan, especially insiders, at the expense of the Corporation and its existing shareholders.

In the event of a subdivision or consolidation of the Common Shares of the Corporation, a corresponding adjustment shall be made changing the number of shares deliverable upon the exercise of any option theretofore granted without change in the total price applicable to the unexercised portion of the option, but with a corresponding adjustment in the price for each share covered by the option. In the event that the Corporation is reorganized or merged or consolidated or amalgamated with another Corporation, appropriate provisions shall be made for the continuance of the options outstanding under the Stock Option Plan and to prevent their dilution or enlargement.

Under the Stock Option Plan, in the event that the term of an option expires during such period of time during which insiders are prohibited from trading in shares as provided by the Corporation's insider trading policy, as it may be implemented and amended from time to time (a "Blackout Period") or within 9 business days thereafter, the option shall expire on the date that is 10 business days following the Blackout Period.

The Board does not formally review the contributions of individual Directors; however, it believes that its current size facilitates informal discussion and evaluation of members' contributions within that framework.

DIVERSITY AMONG THE BOARD AND EXECUTIVES

NanoXplore believes that a Board and senior management team comprised of highly qualified individuals that reflect the diverse populations of the communities in which NanoXplore operates results in effective decision making and supports NanoXplore's commitment to strong corporate governance. The Board has adopted a written diversity, equity and Inclusion policy (the "**DEI Policy**"), a copy of which is available online on the Corporation's website at www.nanoxplore.ca, by which NanoXplore promotes diversity on the Board and senior management team.

The Corporation has adopted this policy as part of its commitment to foster an environment where everyone feels as though they belong and where their dignity, beliefs, and identity are respected. To achieve this, we strive to create a supportive work environment and a culture that welcomes everyone and encourages equitable opportunities for all employees. The company will comply with all applicable legislation in pursuit of these endeavors.

The Corporation will strive to create a culturally competent workforce by:

- Providing adequate training about diversity, equity, and inclusion.
- Ensuring leadership teams are trained on unconscious bias regarding recruiting, performance management, and terminations.
- Encouraging positive attitudes towards cultural differences.
- Raising awareness of and eliminating unconscious biases and the harmful effects of prejudice, discrimination, and microaggressions; and
- Learning from people with diverse backgrounds and experiences.

In support of the DEI Policy, the CGNC, in recommending future nominees for election to the Board, in recruiting and hiring senior management, considers diversity criteria such as gender, race, religion, ethnicity, sexual orientation, physical ability, geographic representation, age and other characteristics of the communities in which NanoXplore operates.

Board Diversity

The Board strongly believes in the benefits of a diverse Board, which include accessing a broader pool of qualified candidates and different perspectives, experiences and ideas which enhance decision making and provide the opportunity for innovation. Accordingly, consideration of the number of women, Aboriginal peoples, persons with disabilities and members of visible minorities who are directors, along with consideration of other diversity criteria, are important components of the selection process for nominees. In support of the DEI Policy, when recommending nominees to the Board, the CGNC develops and recommends strategies for identifying and attracting diverse

candidates. The Board is committed to diversity; however, it has not established targets for diversity among Directors as the Board believes that its criteria for recommending future nominees takes into account NanoXplore's overall objectives of increasing diversity while also ensuring that the Board possesses the necessary skills and experience to fulfill its responsibilities.

As of the date hereof, two of the Corporation's nine Directors (22.2%) identify as visible minorities, and two of the Corporation's nine Directors are women (22.2%). None self-identify as a person with disabilities or as an Aboriginal person. Adherence to the DEI Policy will be assessed by the Board and the CGNC on an annual basis. As part of the CGNC's assessment, it will consider the level of representation on the Board of the various diversity criteria outlined in the DEI Policy, including the representation of women. The CGNC will review the DEI Policy at least annually and may recommend changes in order to achieve the goals outlined in the DEI.

Executive Diversity

NanoXplore employs a mix of formal and informal policies and practices, including the DEI Policy, aimed at promoting a diverse workforce. The Corporation also focuses on the development and advancement of women, along with consideration of other diverse individuals, as an integral part of the senior management team, which includes both executive officers and senior positions reporting directly to executive officers. NanoXplore considers many factors, including necessary skills and experience required when recruiting and hiring senior management. Diversity criteria, including level of representation of women in senior management, is also considered during recruitment and hiring.

While there are currently no targets with respect to diversity in executive officer positions, NanoXplore recognizes that in order to achieve a representative balance in senior management it must develop strategies for identifying and attracting candidates with diversities for recruitment. Such strategies include engaging the services of external advisors where necessary to help identify future candidates who possess the necessary skills and experience as well as developing its internal talent to ensure that where possible, there will be highly qualified persons within NanoXplore available to fill vacancies. To that end, NanoXplore has made it an organizational goal to identify and address obstacles that may hinder the progression of individuals with diversities into senior management.

As of the date hereof, one of the four members of senior management identifies as visible minorities (25%), and one is a woman (25%). None self-identify as a person with disabilities or as an Aboriginal person. As part of the CGNC's assessment of the DEI Policy, it will consider the level of diversity, including gender diversity, visible minorities, persons with disabilities and Aboriginal persons, in the senior management team. The CGNC will also review the DEI Policy at least annually and may recommend changes to achieve NanoXplore's diversity goals for senior management. The commitment to diversity, as well as its promotion, expressed in the DEI Policy also applies to NanoXplore's recruitment, hiring and advancement practices in respect of all of its employees.

BOARD RENEWAL

The Board has not adopted director term limits, a mandatory retirement policy or other formal mechanisms of board renewal. The Board, with the assistance of its CGNC, periodically reviews its composition to ensure that it continues to have the ideal mix of skills, perspectives, experience and expertise to effectively oversee management, and provide fresh ideas and viewpoints while not losing the insight and experience of longer serving directors and in particular their in-depth knowledge of the Corporation. The Corporation believes that it is important to achieve an appropriate balance of both to ensure the effectiveness of the Board. In addition, the Board assessment and peer review process encompasses an assessment of the independence of directors, including any impacts on a directors' independence as a result of his or her tenure on the board.

SUSTAINABILITY

The Board of Directors oversees the Corporation's strategy and risk management processes, which includes ensuring that the Corporation has good corporate culture, strong governance structure, promotes the protection of the environment and other elements of sustainable business. We believe that these elements are an integral part of the long-term sustainability of a business enterprise. Moreover, Catherine Loubier, as member of the CGNC, oversees the Corporation's initiatives in regards with Environmental, Social and Governance ("ESG") questions.

The Corporation's vision is to create a better tomorrow by providing innovative, sustainable products and solutions across multiple industries and applications. Its mission is to empower its people within a business framework committed

to enhancing performance through carbon chemistry – enabling superior results for its employees, its customers, its suppliers, its shareholders, its community, and the environment. The Board has a responsibility to support both.

NanoXplore provides a greener alternative of carbon-based materials, like carbon black. Such materials are not naturally produced in the environment, they are manufactured by the controlled vapour-phase pyrolysis and partial combustion of gaseous or liquid hydrocarbons. Both processes that have a negative environmental footprint. In comparison, NanoXplore produces graphene through a mechano-chemical process that involves natural flake graphite, water and hydroelectricity. NanoXplore's GrapheneBlack™ technology allows for the recyclability of plastic to continue beyond one cycle when adding a small amount of graphene without sacrificing product performance. Our technology provides a unique value proposal and a real sustainable benefit to our customers within the plastics industry.

The Corporation is built on strong values and the Corporation runs its business in a socially responsible and ethical manner, by respecting the environment, respecting the law, supporting universal human rights and contributing to communities around the world.

Since its inception, the Corporation has implemented labour and environmental policies and practices that address these important matters, including policies promoting fair compensation and work hours, freedom of association, anti-harassment and discrimination, health and safety, and practices that promote community engagement and respect for the environment. The Corporation assesses and updates its sustainability and environment strategies where possible to meet its own goals for an environmentally and socially responsible company.

The Corporation's approach to health and safety, diversity and inclusion, environmental sustainability and the like is not simply in response to popular trends: it is at the core of NanoXplore's culture to make people's lives better. It is a given that people are to be treated the way we wish to be treated, with dignity and respect. It is foundational that a person has a right to feel and to be safe in our company, physically or emotionally, that prejudice in any form is unacceptable, that opportunity is provided equally to all. The Corporation strives to do that every day. It is also foundational that we as a company promote sustainability in all we do in our communities, by respecting and improving the environment, and indeed, our business focuses on reducing carbon footprint and saving energy. This is what sustainability means to us.
